TOOLING
• Emacs, VS Code, Vim
• R Studio, Jupyter
• reveal-md Pandoc HTML
• Many more

PANDOC EXAMPLE

```
pandoc -t revealjs -s -o myslides.html myslides.md \
    -V revealjs-url=http://lab.hakim.se/reveal-js
```

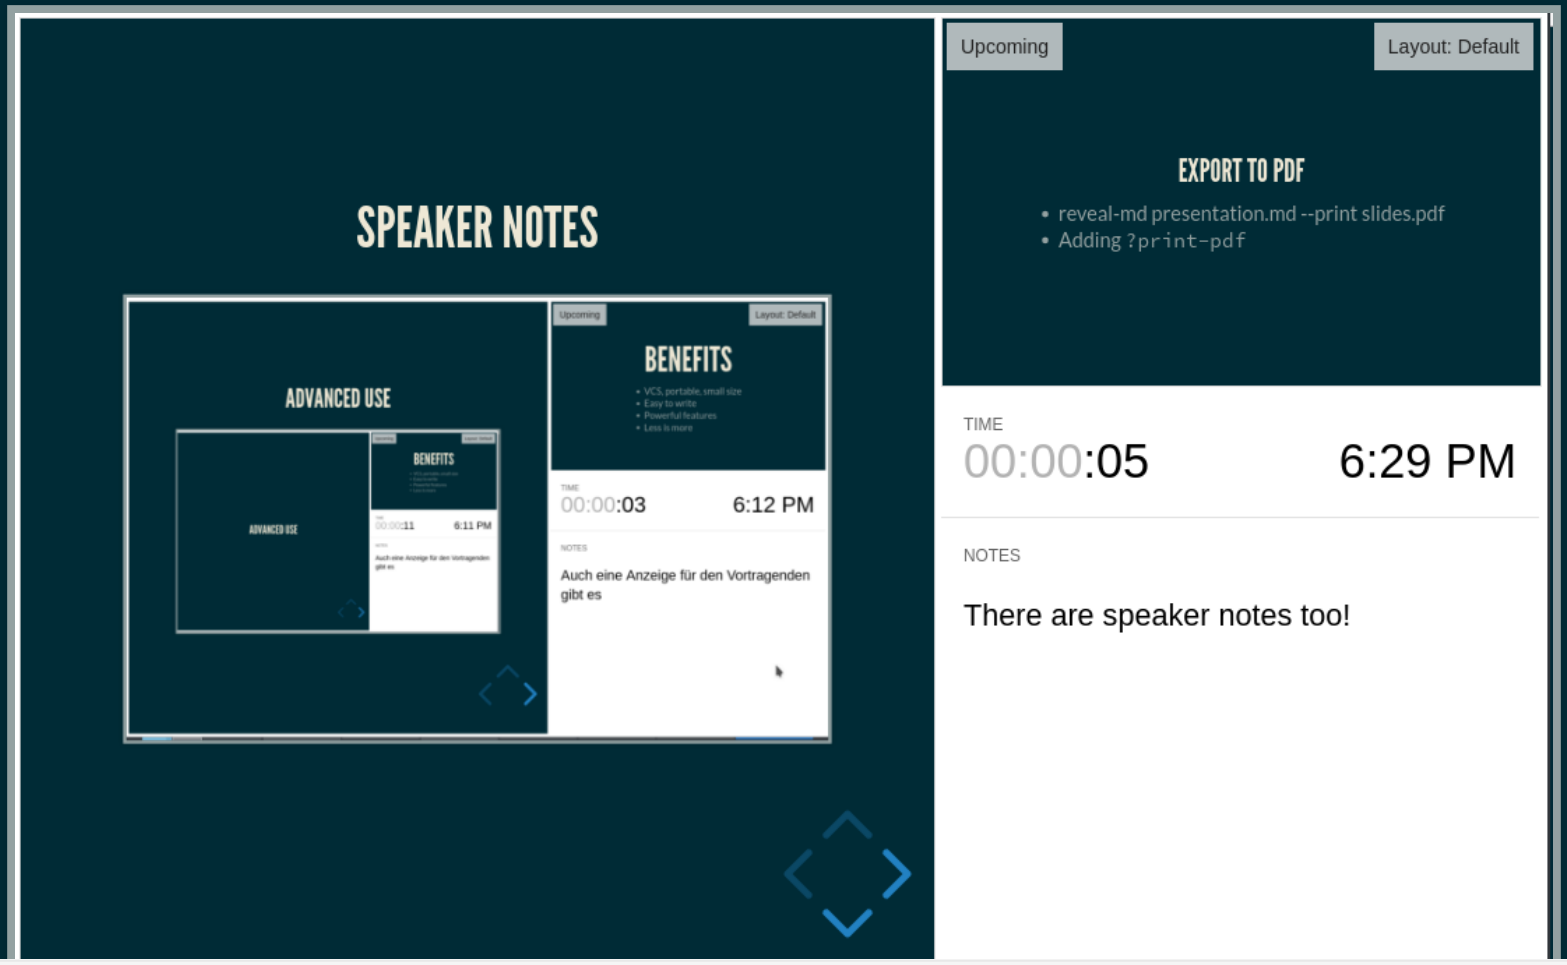
REVEAL-MD EXAMPLE

```
npm i -g reveal-md
reveal-md presentation.md --static public
```

REVEALJS & GITLAB WORKFLOW

1. VS Code editing
2. Export with reveal-md
3. Push changes to Gitlab
4. Triggering Gitlab CI

SPEAKER NOTES



Speaker notes

There are speaker notes too!

PDF EXPORT

- reveal-md presentation.md --print slides.pdf
- With vscode-reveal
- Adding `?print-pdf-now` manually
- Pandoc

This presentaion as PDF

Speaker notes

First requires Puppeteer installed second works for now only with Chrome

BENEFITS

- VCS, portable, small size
- Easy to write
- Powerful features
- Less is more

TO BE CONSIDERED

- No diagrams ootb
- Image sizing/alignment tricky
- Additional export
- Basic HTML knowledge required
- Browser compatibility

ALTERNATIVES

- Impressjs
- Remark
- Shower
- Latex Beamer
- Prezi

LINKS

- Revealjs
- Visual Studio Code
- Emacs
- Pandoc
- reveal-md
- Gitlab Pages

THANKS !
